October sees thousands of dog owners dress their pets in cute, spooky and hilarious outfits for Halloween. But one dog owner has given their golden retriever a dramatic makeover with pet friendly dye and transformed them into a tiger.

In a viral clip viewed more than 4.1 million times, Odin the retriever is lying down calmly in the garden whilst his owner paints his golden locks bright orange.

She then adds the black stripes and Odin chills out whilst his new look dries before the big reveal that would certainly turn heads on the morning walk.
